PROFILE

I'm a dependable and goal-oriented IT Specialist, with growing experience as a Software Engineer. I have a strong foundation in HTML, CSS, MySQL, Linux operating systems, UI/UX design, and a basic understanding of React. I am currently pursuing studies at ALX Africa as a Software Engineer, with imminent graduation. Eager to contribute technical expertise and creativity to dynamic web development projects.

SKILLS

WEB DEVELOPMENT:

- . Proficient in HTML and CSS, with hands-on experience in building responsive and visually appealing websites.
- . Strong knowledge of MySQL for database management, including data modeling and querying.
- . Familiarity with Linux operating systems, enabling efficient web server management and troubleshooting.

UI/UX DESIGN:

- . Adept at creating user-centric design interfaces, ensuring a seamless user experience.
- . Competent in wireframing, prototyping, and usability testing.

FRONTEND DEVELOPMENT:

- . Basic understanding of React.js, capable of building simple interactive components.

INTERESTS

- . Coding and web development.
- . Cybersecurity.
- . Technology trends and innovations.

PERSONAL SKILLS

Determined.
Ambitious.
Leadership Skill.
Communication Skill.
Team Player.
Deadline Led.
Well Presented.

LANGUAGES

English

PROJECTS:

BUSINESS LANDING PAGE:

. Develop a fully responsive business website for a business brand using HTML, CSS, JavaScript, and PHP form handlers.

PORTFOLIO WEBSITE:

. Created a personal portfolio website showcasing web development projects and skills.

. Designing an intuitive UI/UX to highlight the content effectively.

EXPERIENCE

NETWORK OPERATION CENTRE ENGINEER— CHOICE2MOBILE TECHNOLOGY, LAGOS STATE.

JULY 2020 – Present.

. Assisted in managing and maintaining backend infrastructure, including servers and network systems.

. Collaborated with the IT team to troubleshoot and resolve technical issues.

• Network monitoring using PRTG network management applications.

• Configurations of home routers and integration on OLT.

• PTP and PTMP radio implementation and troubleshooting.

• Providing both technical and non-technical customer support and interaction.

• Responding to emergency alarms and LED indicators from the server, providing first-hand troubleshooting and escalation if necessary.

• Maintaining communication between team members to ensure everyone is updated with any issue.

• Keeping track of records and documentation of tickets raised on any technical issues.

• Maintaining regular backup of configurations on network devices, and performing recovery operations when necessary.
